

Announcement of Organizational Name Changes

Dear Friends and Colleagues:

As is well known, the Eastern Portion of Japan suffered the devastating effect of both a massive earthquake and a destructive TSUNAMI wave on Friday, March 11, 2011. We pause to remember the many victims of this natural disaster in Japan.

With this notice, we would like to notify you of the following organizational name changes for the TNP Group, effective July, 2011.

Over 10 years have passed since the keywords were formed: T (Technology), S (Science), U (Universe), N (Navigator), A (Association), M (Minato ("Harbor")), I (Innovation). And although TNP stands for the previous company name "TSUNAMI Network Partners", we continue to move forward in our activities in the spirit of "Technology Network Platform" as we have done since our inception.

(Previous Name) TSUNAMI Network Partners, Corporation
(New Name) TNP Partners, Corporation

(Previous Name) TSUNAMI On The Road, Corporation
(New Name) TNP On The Road, Corporation

(Previous Name) TSUNAMI Capital Management, Inc.
(New Name) TNP Strategic Capital, Inc. (Effective April, 2011)

In addition, the "NPO Venture Support Mechanism TSUNAMI", having completed the prescribed necessary procedures, shall also undergo a formal name change, as follows:

(Previous Name) NPO Venture Support Mechanism TSUNAMI
(New Name) NPO Venture Support Mechanism MINERVA

It is noted that "MINERVA" is referred to as the "goddess of wisdom and industrial arts". As we move forward our mission is to treat with respect the benefits of nature, assemble the wisdom developed by mankind, and in pioneering new advances in technology, building a society which fuses the greatness of both nature, science and technology. Furthermore based on the plentiful nature of that which is throughout Asia, pulling together the respective powers of the region, we will work for the future to combine these elements innovation through engineering. We believe the time is now for us to expand our supportive base based on the current challenges in Japan and Asia.

All members of the TNP Group, herein having this new vision diligently in our hearts, vow to further our efforts and achieve your continued and increased support of our efforts.

Finally--during this June--each organization shall have its general and board meetings, and will undertake the work to enact the various name changes as mentioned above. Furthermore, to create the minimum of disturbance or interruption, we foresee continuing with the same URL and e mail domains for the present time, so accordingly feel free to continue to use those.

June 30, 2011
